Cash on Delivery option remains active when delivery instructions prevent any contact with customer

▼

Description

Steps to Reproduce:

1. Open toing app

2. Add any item to cart

3. Go to cart section

4. Click on "Instructions" option

5. Select these three instructions together — "Avoid calling", "Avoid ring bell", "Leave parcel at door"

6. Proceed to payment section

7. Observe available payment options

Expected Result:

Cash on Delivery option should be automatically disabled or a warning should appear — since delivery person cannot call, ring bell, or make contact, collecting cash payment is impossible.

Actual Result:

Cash on Delivery option remains active and selectable even when all three no-contact instructions are selected, creating an impossible delivery scenario.
