

SCRUM-5

While testing sign in functionality on sign in page with sign in with google is not working first time but second time when click on sign in with google sometime its working.

1. Open login page
2. Click "continue with google"
3. Select Google account
4. If sign-in fails, click "Continue with Google" again to verify it works on the second attempt

Expected Result: User should be signed in successfully on first attempt (auto-registration).

Actual Result : Sign-in fails on first attempt, works on second attempt.

Date format inconsistency in Maintenance section.

+

...

▼ Description

Steps to Reproduce:

1. Go to Admin → Maintenance
2. Schedule maintenance (date shown as dd-mm-yyyy)
3. Complete it
4. Go to View Details

Expected Result: Date format should be consistent everywhere (dd-mm-yyyy).

Actual Result: In View Details, date shows as mm-d-yyyy.

Multiple issues in User Management section

+

...

▼ Description

Steps to Reproduce:

1. Go to User section
2. Try to Add User → Not working
3. Try to Edit User → Department field not showing
4. Try to Delete User → Not working
5. Add phone number with 2 or 5 digits → It accepts

Expected Result: All CRUD operations should work. Phone field should validate 10 digits.

Actual Result: Add/Edit/Delete not working. Invalid phone numbers accepted.

To Do

 Improve Bug

▼ Description

Steps to Reproduce:

1. Go to Resource section
2. Click Delete on any resource
3. Confirm deletion

Expected Result: Resource should be permanently deleted.

Actual Result: Shows "Delete successfully" but resource still appears after refresh.

SCRUM-10

1

To Do

Improve Bug

Description

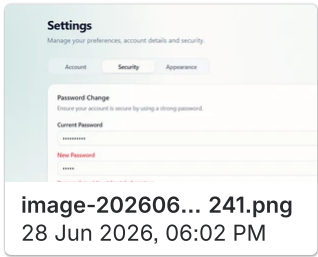

Steps to Reproduce:

1. Register new user with 5-character password → Works
2. Same user tries to change password → Shows error "At least 5 characters required"

Expected Result: Same validation rule should apply everywhere

Actual Result: Register allows 5 chars, Change Password says minimum 5 chars (contradiction)
